Project Name: _____ Project APN: _____

Applicant Name: _____ Applicant Email: _____

This supplemental form is used by City staff to determine the appropriate level of environmental review required under the California Environmental Quality Act (CEQA) for the proposed project. Answer all questions fully and accurately. Staff will use responses to determine whether the project qualifies for an exemption or requires further environmental review.

Project Description: briefly describe the entire project and related entitlements:

Categorical Exemption Screening (§ 15300 et seq.)

Does any of the following apply to the project:

- ☐ Class 1 — Negligible/no expansion of existing uses at existing facilities
- ☐ Class 2 — Replacement/reconstruction of existing structures with same purpose and capacity
- ☐ Class 3 — New construction of small structures (single-family, small commercial, accessory up to 10,000 sf in urbanized areas)
- ☐ Class 5 — Minor alterations to land use limitations (setbacks, minor variances)
- ☐ Class 32 — In-fill development consistent with General Plan and zoning, urban location, no more than 5 acres, no significant habitat

Required Technical Studies

Complete if no exemption applies. Check yes if the question applies to the project.

1. Would the project impact a scenic vista?
   - ☐ Yes – prepare a visual simulation.
2. Would the project involve construction and operational activities?
   - ☐ Yes – prepare an air quality analysis prepared by a qualified specialist.

3. Does the project propose a distribution center within 1,000 feet or gas station within 50 feet of sensitive receptors?

   ☐ Yes, prepare a health risk assessment

4. Is the project located in a riparian habitat or wetland habitat?

   ☐ Yes – prepare a wetland delineation report

5. Is the project located on land that could provide suitable habitat for special-status species?

   ☐ Yes – provide a biological assessment report prepared by a qualified biologist

6. Would the project involve construction on previously undisturbed land?

   ☐ Yes – provide a CHRIS records search and a sacred lands file (SLF) search

7. Would the project involve demolition of a structure constructed 45 or more years ago?

   ☐ Yes – provide Notice of Intent to Demolish and a Historic Resource Evaluation

8. Would the project result in wasteful, inefficient, or unnecessary consumption of energy resources during construction or operation?

   ☐ Yes – provide details: _____

9. Is there any evidence of unique paleontological resource and/or geological feature on site?

   ☐ Yes – provide paleontological and/or geological report by a qualified specialist.

10. Would the project routinely transport, use, store, or dispose of hazardous materials?

    ☐ Yes – provide hazardous materials business plan

11. Is the project located in an area currently or formerly developed with industrial land uses, or within 100 feet of known hazardous waste sites?

    ☐ Yes – provide a Phase 1 Environmental Site Assessment prepared by a qualified specialist

12. Does the project propose noise-sensitive land use (residences, lodging, medical facilities, community facilities, schools, library, etc.) adjacent to highway, arterial, or collector roads?

    ☐ Yes – provide a noise study prepared by a qualified specialist

Office Use Only

Associated Master Application Number: _____

Staff Determination: ☐ Exemption ☐ Initial Study and ND/MND ☐ Environmental Impact Report

☐ Addendum, tier from _____
