

# CONSTRUCTION & DEMOLITION WASTE MANAGEMENT PROGRAM

## PROGRAM OVERVIEW

Below are projects required to recycle and/or salvage for reuse a minimum of 65% of the non-hazardous construction and demolition waste in accordance with Cal-Green code sections 4.408.1 and 5.408.1. All covered project can either apply for the Athens Services Program or the Self-Haul Program:

RESIDENTIAL	NON-RESIDENTIAL
All new construction	All new construction
Demolition	Demolition
Any addition or alteration which increases the building's conditioned area, volume or size	Any addition or alteration that requires a building permit.

### Steps to Compliance: Athens Services

1. Order a construction bin from Athens Services. Complete and submit the Athens Services Confirmation form to the Building Permit Counter.
2. Athens will collect and track your diversion rates.
3. At the end of the project, request your diversion report from Athens and submit it to your Building Inspector for approval prior to the final inspection.

Athens Services, the City of South Pasadena's exclusive refuse provider, proudly presents its additional refuse removal service. If your construction and/or clean-out project requires a temporary trash bin and/or a roll-off container, please contact:

**Roll-Off Containers**  
Available in 10, 20 and 40 Cubic Yard capacity

**Bins**  
Available in 1.5, 2.0 and 3.0 Cubic Yard capacity

Athens Services will process all viable materials at its own materials recovery facility to recover all recyclables. The disposal rates for these services are higher as the City is required to divert recyclable materials from landfills.

### Steps to Compliance: Self-Haul

1. Complete and submit the Self-Haul Application attached.
2. In a company or Owner Builders' vehicle, transport construction waste to a pre-approved recycling facility on the attached list.
3. Self-track your waste weight tickets and diversion rates, making sure to keep your weight tickets on file for the final. Your weight tickets must show the waste origin as South Pasadena.
4. Complete and submit the Waste Management Compliance Worksheet, along with your weight tickets, at the end of the project prior to the final inspection.

## CONSTRUCTION & DEMOLITION WASTE MANAGEMENT PROGRAM

### WASTE MANAGEMENT AGREEMENTS

Please complete and sign either the Athens Service Application **OR** Self-Haul Application

#### Athens Services Application

Name (Owner/ Contractor): \_\_\_\_\_ Date: \_\_\_\_\_

Jobsite Address: \_\_\_\_\_ Phone: \_\_\_\_\_

Athens Order Number: \_\_\_\_\_ Delivery Date: \_\_\_\_\_

By signing below, you agree to following:

1. Athens Services will handle all construction and demolition debris.
2. Any roll-off containers on property will provided from Athens Services.
3. Prior to the self-hauling of any C&D waste, a self-haul application will be submitted and approved by the Building Division.
4. At the end of construction, a diversion report will be obtained from Athens Services and submitted to the Building Inspector for approval prior to the final inspection.

## CONSTRUCTION & DEMOLITION WASTE MANAGEMENT PROGRAM

### SELF-HAUL WASTE MANAGEMENT PLAN

Directions:

1. Select a recycling facility from the list of pre-approved facilities.
2. Estimate the material type, weight collected, and weight recycled you expect for the project.
3. Submit to Building Division for approval prior to permit issuance.

MATERIAL TYPE (ESTIMATED)	WEIGHT COLLECTED (ESTIMATED)	WEIGHT RECYCLED (ESTIMATED)	RECYCLING FACILITY TO BE USED
<i>Asphalt/Concrete (Inert)</i>			
<i>Brick (Inert)</i>			
<i>Dirt/Soil (Inert)</i>			
<i>Rock/Stone (Inert)</i>			
<i>Wood</i>			
<i>Metals</i>			
<i>Drywall</i>
