Re: April 18, 2018 City Council Meeting Item No. 18 Additional Document –
Revised Resolution of the City Council of the City of South Pasadena, California
Identifying a List of Projects for Fiscal Year 2018-19 Funded by Senate Bill 1:
The Road Repair and Accountability Act of 2017

Staff has prepared an alternate list of project for Senate Bill 1 (SB1) funding for Council consideration. The proposed list of street improvement projects are “fix-it-first” projects which are maintenance such as, pot hole repairs, slurry seals, cape seals and overlays. The City annually invests \$300,000-\$350,000 in preventative street maintenance. SB1 funds will initially be used to cover all preventative maintenance throughout the City. Attached is a revised Resolution that identifies a List of Projects for Fiscal Year (FY) 2018-19 Funded by Senate Bill 1: The Road Repair and Accountability Act of 2017.

AGENDA ITEM # 18
4/18/18 City Council Meeting*

RESOLUTION NO. _____

**A RESOLUTION OF THE CITY COUNCIL
OF THE CITY OF SOUTH PASADENA, CALIFORNIA,
IDENTIFYING A LIST OF PROJECTS FOR FISCAL YEAR 2018-19
FUNDED BY SENATE BILL 1: THE ROAD REPAIR AND
ACCOUNTABILITY ACT OF 2017**

WHEREAS, Senate Bill 1 (SB 1), the Road Repair and Accountability Act of 2017 (Chapter 5, Statutes of 2017) was passed by the Legislature and Signed into law by the Governor in April 2017, in order to address the significant multi-modal transportation funding shortfalls statewide; and

WHEREAS, SB 1 includes accountability and transparency provisions that will ensure the residents of the City of South Pasadena (City) are aware of the projects proposed for funding in our community and which projects have been completed each fiscal year; and

WHEREAS, the City must adopt a list of all projects proposed to receive funding from the Road Maintenance and Rehabilitation Account (RMRA), created by SB 1 by resolution, which must include a description and the location of each proposed project, a proposed schedule for the project's completion, and the estimated useful life of the improvement; and

WHEREAS, the City, will receive an estimated \$431,000 in RMRA funding in Fiscal Year (FY) 2018-19 from SB 1; and

WHEREAS, this is the second year in which the City is receiving SB 1 funding which will enable the City to continue essential road maintenance and rehabilitation projects, safety improvements, repairing and replacing aging bridges, and increasing access and mobility options for the traveling public that would not have otherwise been possible without SB 1; and

WHEREAS, the City has undergone a robust public process to ensure public input into our community's transportation priorities/the project list. The City's Public Works Commission (PWC) reviewed the proposed project list, received public input and provided a recommendation to the City Council; and

WHEREAS, the City used a Pavement Management System (PMS) to develop the SB 1 project list to ensure revenues are being used on the most high-priority and cost-effective projects that also meet the communities priorities for transportation investment. The PMS generates a comprehensive report of the citywide pavement condition index (PCI) for all streets. The PCI, engineering recommendation, citizen participation and PWC input are utilized to establish the proposed capital improvement program annually; and

WHEREAS, the funding from SB 1 will help the City maintain and rehabilitate streets/roads, bridges, add active transportation infrastructure throughout the City this year and hundreds of similar projects into the future; and

WHEREAS, the 2016 California Statewide Local Streets and Roads Needs Assessment found that the City's streets and roads are in a good to poor condition and this revenue will help the City increase the overall quality of our road system and over the next decade will bring the City's streets and roads into an excellent to good condition; and

WHEREAS, maintaining and preserving the local street and road system in good condition will reduce drive times and traffic congestion, improve bicycle safety, and make the pedestrian experience safer and more appealing, which leads to reduce vehicle emissions helping the State achieve its air quality and greenhouse gas emissions reductions goals; and

WHEREAS, the SB 1 project list and overall investment in our local streets and roads infrastructure with a focus on basic maintenance and safety, investing in complete streets infrastructure, and using cutting-edge technology, materials and practices, will have significant positive co-benefits statewide.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SOUTH PASADENA, CALIFORNIA, DOES RESOLVE, DECLARE, DETERMINE AND ORDER AS FOLLOWS:

SECTION 1. The foregoing recitals are true and correct.

SECTION 2. The \$350,000 budget for FY 2018-19 is to incorporate the following list of projects planned to be funded with Road Maintenance and Rehabilitation Account revenues:

FY 2018-19 Capital Improvement Projects – Under the terms of the California Transportation Financing Package for SB 1: The Road Repair and Accountability Act, the following streets are identified for RMRA funds. The following street improvement projects for FY 2018-19 have been adopted in the City Budget.

Project Description – The project scope of work consists of street and highway pavement maintenance; rehabilitation, installation, construction, and reconstruction of necessary associated facilities such as drainage and traffic control devices; maintenance, rehabilitation, installation, construction, and reconstruction of facilities that expand ridership on transit systems; safety projects to reduce fatalities; or as a local match to obtain state or federal transportation funds for similar purposes.
