Application for Reduction/Increase in Meter Size

This application is used to request a reduction/increase in the size of a City water meter. A reduction/increase in size is subject to approval by the Public Works Department. It is the responsibility of the property owner or account holder requesting the reduction to verify that the requested meter size will provide sufficient flow and pressure to comply with code requirements and meet the needs of the occupants of the property. City reserves the right to change the meter size if it is determined that the meter's flow rate is outside the manufacturer's recommended range. The following maximum operating flow rates for City meters are provided for information only. Customers are encouraged to seek the advice of a trained professional to be sure that any reduction in meter size is appropriate for their particular property.

Meter Size	Maximum Flow Rate gal./min.
3/4"	30
1"	50
1-1/2"	100
2"	160
