

The City of South Pasadena is proactively working to inform local restaurants, bars, fitness centers and entertainment venues of the new County of Los Angeles – Department of Public Health Order, which temporarily prohibits group events and gatherings in order to stop the spread of COVID-19.

ABOUT LA COUNTY’S HEALTH ORDER

This order specifically requires the closure of bars and nightclubs that do not serve food, fitness centers and entertainment venues.

Restaurants/fast food facilities are limited to preparing and offering food to customers via:

- Delivery service
- Take out
- Drive thru

The City of South Pasadena has also closed its park play areas to the public. Signage and caution tape surrounds the play areas. Community members may still visit the park to walk or jog but they cannot play in the play areas.

HOW ARE BUSINESSES BEING NOTIFIED?

The City is working hand-in-hand with the South Pasadena Chamber of Commerce and reaching out to all businesses affected by this change.

Information has also been provided by the City to the media as well as posting on the City’s social media channels, e-news and website.

WHAT HAPPENS IF A BUSINESS FAILS TO COMPLY?

According to the County’s Public Health Order, non-compliance is a misdemeanor punishable by imprisonment, fine or both under California Health and Section Code Section 120295. The City will be coordinating compliance efforts with the County to ensure the health and safety of our community.

WHO CAN I CALL IF I HAVE QUESTIONS ON ENFORCEMENT?

South Pasadena Police Department will be working with the County of Los Angeles to enforce the new Order. Questions should be directed to (626) 403-7297.
